Dear Joan,

Thank you for the letter and the book. I suppose that you don't see much about Selma, Alabama in your paper but it looks as if at long last President Johnson is forced by public opinion to follow through on his campaign promises about Civil Rights.

Have no fear regarding upsetting a few of our people -- they need it. The majority of the church have been vocal in their support of Civil Rights as a Christian imperative.

Would it be reasonable to bring my family to Canton for a few days this summer motels, etc?

To have a cause is to live - there is no other way to find meaning.

Sincerely,

Dale Catlin
