Hello Alica,

I received your letter and the money orders which you mailed me, on your previous letter with the checks you stated that the two checks are for two weeks; so I guess that you are going away again for two weeks. I haven't had any trouble any more cashing the checks which you have been mailing me, during the time that the supplies arrived here in Laurel, we weren't here; because of a district staff meeting which was held in Wave Land, Mississippi, at this meeting which we were attending a great deal of constructive programs came out of it, such as ground breaker programs; this I will run through briefly the role that this committee plays, the reason that it was formed is because of the FDP project which is planned for this summer, there are many counties, that haven't been touched by anyone, and it is the ground breaker job to go into those counties, and open them up for the people that are coming this summer, and I am one of the six persons which was appointed on this committee, and the next program no I shouldn't say program, but I will say issue that came up was this; to set up a central office for the fifth congressional district, and appoint its staffs personnel, and to set a structure of how this office and its staffs should function. After the last issue there were a bit of difficulties on how the central office should function, so a steering committee was formed; and this committee consists of all the project directors of the fifth district, the main function of this committee will deal with all the major decisions that are to be made in the fifth district, and any other that is made, now back to the local level of our project; it is only fair for me to let you know how we are dealing with the cloths that you sent down here, there are some ladies that are handling the cloths we call them the cloths committee ladies; the way that they issue out the cloths is great, we run off some applications and give them to the committee and they begin to walk door to door and give the applications to the people that need the cloths the worse, and this way the cloths get distributed proper and to the persons that really need them, oh yes; Mr. Power, has invited me to come to Madison, for a while, and I have accepted his invitation to come, but I did that without any consideration of how am I going to go to Madison at this point when there are some many things going on here, and I have already ventured out into a neighbor county, next to Laurel, Wayne county, is the name of it, so I will have to write Mr. Power back and tell him that I will how to come when I get Wayne open since I have already begun in it, I am going to put some more information in this envelope and I hope that you can make something out of it for the cause.
