

Monday, Sept. 20: In the morning, to see Mr. Moore about what happened to the precinct meeting. He wasn't home. In the afternoon, in to Canton to see the doctor. That night, saw Mr. Moore about the meeting, there was a misunderstanding on my part.

Tuesday, Sept. 21: In the morning, Andrew Green came over, promised to have a car for me at 10:30, which didn't happen. In the afternoon got some tuition affidavits on the road south of St. Pauls. Checked the St. Paul Freedom School Library for material for a political education workshop.

Wednesday, Sept. 22: Collected more tuition affidavits. Rain messed up part of the day.

Thursday, Sept. 23: Rained all morning. Set up a meeting at St. John's on the school tuition business. In to Canton at night to check their library for stuff on political education, and try to get someone to attend a meeting at Mt. Zion, since two meetings were happening at the same time.

Friday, Sept. 24: Most of the day spent informing people in Communities G and H about the ASG workshop tomorrow. Also talked to people around Mt. Zion, letting them have info about tuition etc., since they were having a precinct meeting that night which I couldn't stay for. Also discussing the idea of political education workshops. Went to Pleasant Green that night for their precinct meeting, at which I was going to try and get a political workshop going, but not enough people showed up to even hold a precinct meeting.

Saturday, Sept. 25: Went in to Canton for the ASG workshop and the Movement Meeting.

Sunday, Sept. 26: Meeting on schools wasn't held, due both to the apparent lack of necessity (I had hoped that planning done in Canton for a sit-in would be successful, and this meeting would be to coordinate the two areas, but I was told the people in Canton weren't willing), and also lack of spreading the word on my part. Went to church at Magdalene.
