Dear Friends:

Here in Clay County the women in Una Community have borrowed some money from the For People's Corporation to start a sewing co-op which is steadily growing into a factory which will by spring employ 40 women. At the present time 18 women are working everyday making dresses, matchboxes and Christmas tree decoration. We are sending you descriptions of these articles,. The things we want to impress upon you most is that the buying of these articles will not be donations to the Freedom Movement. These are quality items which stores and whole sale houses are also buying. We are telling you in advance so you can get these items in time for Christmas, while the Co-op is going through the slower process of sending in samples and getting buyers.

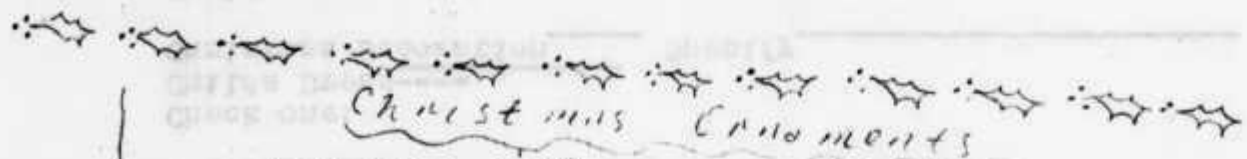

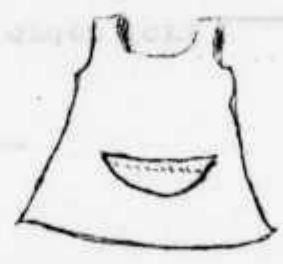

If you live near New York you can see samples at Ellen Maslow

5 Beekman Street, New York, N.Y. You can either send your orders there or to Mrs. Oberia Holliday Route 1, Prairie, Miss.

We hope that you will work in your community to get orders from your friends and especially introduce the idea to stores which you know had these items.
