Voter Bruce Hartford

approx 8:30 A.M.

We (Roosvelt Burnett, Barry Wallace and me) arrived at the voting Place in Beat 3 (Bucknor Precinct House) to leave of Mrs. Emma Rhynes who was Poll watcher for beat 3. She went into the voting Place to begin being Poll watcher, she presented her slip ~~D~~ to the official but they told her she could no stay because there was no room and she had to go 30' away. She left the Polling Place and came and talked to us. A few

minutes later a federal Poll watcher came out and talked to her and took her name etc. Then he went in and talked to the officials. After a while the officials told mrs. Rhynes that she could come in. While this was going on there was a group of white men standing around writing down our license # and talking on a radio Phone in a truck. One of these men (who went in and out of the polling place at will) drove off down the road just B4 we left toward Greensboro. We took another route. Later he showed up in front of our office. He was driving a
