Dear Bill:

I am writing this letter to you as an emergency request for the sound system that you will find pictured on the enclosed brochure.

It is almost imperative that we be able to obtain this equipment for use in our current direct action campaign in Grenada, Mississippi in order to be more effective in fighting the segregationist's forces there. Most of our communications equipment was either confiscated by the police on the Meredith March, misplaced or stolen. Therefore, because of the present financial strain that the Southern Christian Leadership Conference is under and the urgency of possessing this equipment we must appeal to the National Council of Churches to make available to us if at all possible one Carrivoice.

If it is humanly impossible for your Organization to provide us with this system, I would appreciate your returning this literature to me by return mail.

Thank you in advance for your help and consideration in this matter. I will be looking forward to hearing from you as soon as possible.

In God we trust,

Hosea L. Williams
