Hi Faith,

I do hope this letter finds you and the rest of the staff in the best state of health and peace of mind.

My, but I'm so anxious to get to "Terrible Terrell", but for some reason or another, my trip there has been halted! I'm coming.

Jim Forman told me that I could come down there before he got sick, but due to circumstances beyond my control, I have to stay in the office until he is up and able to get around.

Now, getting to other things-tell me what is happening to the rest of the staff? Are they getting many people registered, etc..

We heard about the trial/ suit that the Justice Department has filed in Albany. That is very good work they are finally deciding to do.

Today, I asked Julian, our director, if I could come down to the trial starting Monday, but he said no. My work is needed in the office. You know I'm angry as hell. It could be worse(smile).

This is about all that I can talk about right now! I'm angry as hell!

Answer soon.

P. S. Tell Jack Chatfield that I said hello, also all the rest of the rest of the guys. Tell Sherrod that I will write to him soon.

I will work for SNCC for the rest of the school semester. My sister has taken over the Clyde Kennard Case at Tougaloo College.

Yours in freedom,

*Dorie*
